

O-RING LUBRICANT

Silicone Based

The zero-petroleum, multi-purpose, Permatex® O-Ring Lubricant extends the service life of O-rings and O-ring gaskets. This silicone based formula eases the assembly process and protects against common failures caused by heat and chemicals.

FEATURES & BENEFITS

- Compatible with:
 - Hybrid and Electric Vehicles
 - Most rubbers, including Viton and Nitrile
 - Most plastics, including EPDM and EPT
- NSF Certified
- Corrosion resistant
- High dielectric strength
- Waterproof and heat stable
- Temperature Range -45°C to 288°C (-50°F to 550°F)

APPLICATIONS

Ideal for seals, pressure plugs, pressure valves, weather stripping, pumps, filters, gaskets and O-rings.
